A GRAND MEETING

THAT OF THE STATE ASSOCIATION OF CONGREGATIONAL CHURCHES HERE.

VERY SATISFACTORY ATTENDANCE

The State Work Is to Be Reorganized—Special Music Tonight by Ladies' Musical Club and Two Good Addresses.

Last evening the opening service of the forty-sixth annual meeting of the Congregational Association of Missouri took place at the First Congregational church, the devotional service being conducted by the Rev. C. L. Parker, of Joplin, Mo., with Rev. W. C. Calland, D. D., of Springfield, Mo., as moderator.

The opening hymn, "The World to Christ We Bring," was sung with spirit. Two anthems were very beautifully rendered by the choir. The associational sermon was preached by the Rev. Albert H. Jordan, of the First church, St. Louis, Mo. The text was taken from Jeremiah xxxvi, 1, 17, 18. The sermon was intellectual and interesting. Mr. Jordan is an able speaker.

The communion service followed and was both solemn and impressive. The first service was a decided success in point of attendance. There were present a large number of delegates, and there is every prospect of a successful gathering. The meetings, as advertised, will be continued to Thursday evening.

This evening there will be a great

has his audience thrown into paroxysms of laughter before he gets to the platform.

Lawson is billed on the program to speak on Thursday afternoon, and his presence will be an assurance of a feast of wit, as well as practical pointers to the association.

To Arizona for the Summer.

Arthur V. Burrows, a High school freshman and carrier of a route for the Democrat-Sentinel, will leave on June 1, after the close of school, for Phoenix, Arizona, where he will spend his vacation working in the civil engineering department of the Southern Pacific railway under his brother-in-law, Harry C. Reeder, who is division engineer for the company at that point.

ROBBED THE ELKS

VANDAL BROKE INTO THE CLUB ROOM ON LAMINE STREET AFTER MIDNIGHT.

SUM OF \$10 IN CASH WAS TAKEN

Henry Leist, the Genial Steward, Says the Thief Is, Without Question, the Most Despicable Wretch in Missouri.

A despicable vandal, whom "Dutch" Henry Leist characterizes as the meanest and most contemptible miscreant in Central Missouri, broke into the club rooms of Sedalia lodge No. 125, P. B. O. Elks, last night, and robbed the lodge of \$10 in cash.

As a result of the visit of the theft Sedalia's "bluecoats," plain clothes men, sheriff and deputies and the railways' secret service officers are unraveling clues in the hope of arresting the thief.

The club rooms were closed at midnight by the Elks' porter. They were re-opened at 7:30 o'clock this morning.

The sum of \$10—a \$5 bill and the rest in small change—was missing from the cigar department of the club. On top of the building was a window screen, the screen wiring cut in two pieces. The screen had been cut and unlocked from the window of the cigar department.

The glass in the window was broken and the lock on the window unfastened. A small board, taken from a soap box, was lying in the rooms, having been used to pry open the window after it was unlocked.

The cash register was upside down on the counter, the bottom having been unscrewed and the money taken from it in this manner. The register has a certain combination and cannot be opened except by one familiar with its workings.

A small glass filled with pennies, sitting on one end of the counter to accommodate patrons of the club who patronize the peanut machine, was also emptied. No cigars or anything else was taken.

The only clues on which the authorities are working are the cut screens, broken window, piece of board and empty cash register.

GOING AFTER HIS FAMILY

Rev. D. Leyshon Departs Next Monday for England.

The Rev. D. Leyshon, pastor of the First Congregational church at Cole Camp, who came to America less than a year ago, will leave next Monday for England to bring his wife, two sons and a daughter to this country to locate.

Mrs. F. O. Withers, wife of a Missouri Pacific clerk, very delightfully entertained the members of her Sunday school class of the Epworth M. E. church at her home, 1417 East Seventh street, last night.

During the evening one of the lady guests recited the thrilling experiences of her courtship, which "took" well with all, after which refreshments of ice cream, jello and vanilla wafers were served.

EPWORTH LEAGUE

OF FIRST METHODIST EPISCOPAL CHURCH HELD MEETING LAST NIGHT.

NEW OFFICERS WERE ELECTED

Great Preparations Are Being Made for Anniversary Service on Sunday Night—League Will Be 21 Years of Age.

The Epworth League of the First Methodist Episcopal church held an important business meeting last night. Officers were elected for the ensuing term, and arrangements were made to hold an anniversary service next Sunday, the League having been organized twenty-one years ago.

There were eight new members received last night, and the treasurer reported considerable money on hand. Great interest is now reported in every department of the League. The attendance on Sunday evening is now filling the League room.

The Epworth League has 110 members. The young people of the First church are happy in their work, and are especially pleased at the increase of attendance of young men.

Next Sunday the day begins with a sunrise prayer meeting at 6:30. Then a reception of members will be held in the evening at 7 o'clock, and at 8 o'clock the church services will be given up to a grand rally, with a large chorus choir, with an address by the pastor, Rev. Grant A. Robbins. The church will be beautifully decorated, and everything will be done to make the occasion a happy one.

James, with another negro, was employed in a mining camp in the southern part of the county in 1904, when the Rock Island railway was building in that section. Jealousy over a negress caused James and the negro to fight, during which James killed his assailant.

DEATH OF MRS. WILSON

Burial Service Will Be Held Tomorrow Afternoon.

Mrs. L. A. Wilson, widow of the late George Wilson, a former Missouri Pacific engineer, died from cancer at her home, 407 East Howard street, at 9:40 o'clock this morning, aged 40 years. Mrs. Wilson's birthday was only, yesterday.

DENNY BLAMELESS

NOT RESPONSIBLE FOR THE ACCIDENT TO HIS "AUTO" HERE TUESDAY.

BLAME PLACED ON THE MOTORMAN

Say He Could Have Avoided the Collision Had He Slowed Down His Car, as the Situation Demanded He Should.

Persons who witnessed the street car strike Mr. C. W. Denny's automobile yesterday morning say he was not to blame.

Two ladies who were sitting on the porch of their home, 1220 South Lamine street, facing the coming street car, say it was pure carelessness on the part of the motorman, who had plenty of time to slow down and could easily have avoided the accident had he reduced the speed of the car, as the situation demanded.

The street car did not strike the auto frame, but, instead, eight inches of the back end of the top, which was down, pushing the auto around sideways, damaging the machine to the extent of five or six dollars.

Friends of Mr. Denny say in his favor that there is no more careful "auto" driver in Sedalia, and unless more caution is observed by street car motormen sooner or later more accidents are liable to occur.

CENSUS IS BUMPED

LOCOMOTIVE INVADES A POOL HALL AND DESTROYS ENUMERATOR'S LIST.

ENGINE GOT LOOSE AT ST. JOSEPH

As a Result That City Will Be Short a Good Many Names, as the Enumerator's List Was in the Wreckage.

St. Joseph, Mo., May 11.—The government census in St. Joseph probably will be short several hundred names, and, so far as Uncle Sam is concerned, a number of dusky citizens will not exist as a result of the demolition of part of a building here yesterday by a runaway locomotive.

The engine was being used in an alley, and the air brakes failing to work allowed it to shoot down an incline, jump the track and plunge into a negro pool hall.

Captain John Horan, who was checking up the census for the government in the district, saw the engine coming and fled through a back door, dropping his documents as he ran. The wheels of the locomotive passed over part of the list and the remainder was buried under the debris of the wall. The walls of the building were cracked and persons on the upper floors were shocked but uninjured.

HARKNESS MADE MISTAKE

Missouri Pacific Machinists Not Paid This Morning.

Due to a mistake made by T. L. Harkness, paymaster for the Missouri Pacific, in sending a telegram from St. Louis to Sedalia Tuesday, the machinists were not paid at the passenger station today, as was announced they would be in Tuesday's Democrat-Sentinel.

Paymaster Harkness, during the day, sent a telegram, saying he would pay in Sedalia this morning. In accordance, all of the Missouri Pacific officials made the announcement, and the Democrat-Sentinel was notified, in order to let everyone in Sedalia know the fact.

The mechanics were at the station on time this morning, when the officials made the discovery that Mr. Harkness had made a mistake and promptly notified the men.

Mr. Harkness' present plans are to be here tomorrow to pay.

The dog was playing across the street when it was called home by Mrs. Walsh. The canine had just started to cross the street when it was struck by the machine, the strike breaking the dog's neck.

BAD FOR DR. HYDE

STATE PUTS WITNESSES ON IN REBUTTAL AT THE HEARING TODAY.

REFUTED STORY OF MRS. HYDE

Also the Evidence Given By the Defendant—Scientists Give Evidence That Is Damaging to Hyde.

Kansas City, May 11.—Determined attacks were made by the state in the Swope poisoning case today upon Mrs. Hyde's story regarding the whereabouts of her brother, Thomas, on the night of December 18, and the testimony of Hyde's chemists relating to the formation of hydrocyanic gas in the corpse.

Mrs. James H. Clinton, of Independence, swore that Swope telephoned Dr. Twyman from her residence December 18, at the time when Mrs. Hyde had testified he was at Mrs. Swope's residence with her. Mrs. Clinton said Swope held something in his hand while telephoning. Swope then testified it was the capsules said to have contained cyanide which were dropped by Hyde that he held in it.

Two scientists, Prof. Paul Schweitzer and Prof. H. F. Cady, swore it was impossible for amalgamation of formaldehyde and ammonia to produce hydrocyanic acid in a dead body.

Indications this afternoon are that the state will begin its closing arguments tomorrow. Each side will be given ten hours in which to address the jury.

Such a treat should not be missed. There should be a crowded house.

"THE LITTLE WHIRLWIND"

This is the Title by Which Mr. C. C. Lawson Got Into Print.

C. C. Lawson, who is at Springfield, Ill., attending a meeting of the National Retail Merchants' association, in Tuesday's issue of the Springfield, Ill. Journal has an excellent likeness of himself, together with the following complimentary mention:

C. C. Lawson, of Sedalia, Mo., who is known as the "Little Whirlwind," who is chairman of the rules committee of the National Retail Grocers' association, as well as secretary of the Missouri association, is one of the most popular persons attending the convention.

Besides being author of Lawson's Lectures to Retail Merchants, he is a natural born humorist, and when he is called upon to make a speech he is ready to make it and generally

The Weather Forecast.

Partly cloudy tonight and Thurs-
day, with showers; colder tonight.

A THOUGHT FOR TODAY.

Everything has two handles; the
one soft and manageable, the other
such as will not endure to be touch-
ed. If then your brother do you an
injury, do not take it by the hot,
hard handle, by representing to your
self all the aggravating circum-
stances of the fact; but look rather
on the soft side and extenuate it as
much as possible, by considering the
nearness of the relations and the
long friendship and familiarity be-
tween you—obligations to kindness
which a single provocation ought not
to dissolve. And thus you will take
the accident by its manageable
handle.—Epictetus.

THE TARIFF AND PRICES.

The Massachusetts commission
which has been making a rapid dash
through the economies of the world
for the past twenty years has made
a flying leap to the conclusion that
the tariff is not the cause of the ad-
vanced cost of living, because the
prices of unprotected goods have
risen and because prices have risen
abroad as well as here.

No one supposed that the tariff
was the only cause of the increased
cost of living, and the commission
has pretty thoroughly undermined
its own conclusions.

It adds that the advance in prices,
according to Bradstreet's figures from
the low point in 1896 to the high
point at the beginning of this year,
was 61 per cent; the advance over
the average price of the decade 1890
to 1899 is, however, only 36 per
cent.

This increase of American prices
is found to be about double that of
English prices. The tariff has nothing
to do with the increased cost of
living here, because it has also in-
creased here twice as fast as in
England.

It looks as though the tariff were
responsible for at least half the in-
crease, according to the Massachu-
setts commission itself. Furthermore,
the commission "is of the opinion
that when the tariff shall further be
revised the expediency of removing
the duties on all food products be
considered carefully by congress."

So there, probably was some tariff
in the increase of prices. Congress
had better also consider the removal
of duties from raw materials.

THE PAYING KIND.

A representative of one of the lead-
ing automobile companies is quoted
in Printers' Ink as saying:

"Racing has for years been one of
the favorite methods of advertising,
and many manufacturers spend en-
ormous sums each year in securing
the best drivers, fixing up special
racing cars and paying the expenses

of the great speedways of the coun-
try.

"This method, while it is approv-
ed by many of the manufacturers as
the best way of advertising, does not
come up to the system of advertis-
ing through the newspapers....In
the long run the method by which
the people can be made acquainted
with the cars is the method that
pays."

"A comparatively small proportion
of the people who ought to be inter-
ested in automobiles follow the
races, and a still smaller proportion
are convinced of the merits of a car
by the outcome of a professional
speed contest.

All who are capable of buying an
automobile read the newspapers. No
means of selling motor cars is more
expedient or inexpensive than the
regular use of the daily newspaper.

TO MAIL SUBSCRIBERS.

The postoffice department is check-
ing up the circulation of daily pa-
pers under the provisions of the de-
partment regulations which extends
newspaper rates of postage only to
legitimate paid subscribers.

That rule in the case of a daily pa-
per, does not permit a subscriber to
be more than three months in ar-
rears. A technical and strict enforce-
ment of the regulation would require
a publisher to affix a cent stamp to
every copy of a daily paper sent
through the mails to a subscriber
more than three months behind on
his subscription. This would practi-
cally make a prohibitory rate for
the newspaper.

The publishers had nothing to do
with the law. It is a postal regula-
tion, originating in the department
itself; but the newspapers are re-
quired to assist in its enforcement,
and the subscription accounts are at
all times subject to the inspection of
the postal authorities.

The Democrat-Sentinel has re-
ceived orders from Washington to
keep its subscription list within the
terms of the regulation, and daily
mail subscribers who know them-
selves to be more than three months
in arrears can make it easier by a
compliance with the government rule.

The Chicago man who is asking
the council to appropriate \$500 to fi-
nance a municipal baseball team
seems to have sprung a new brand
of dope. He naively insists that
the entire city's population can not get
in on street paving, police jobs or
other gentler methods of getting the
coin, but believes that some courtes-
ies should be shown to all citizens.
He thinks a municipally owned ball
team, with free tickets to the park,
would be just the thing.

Bryan now says, he will devote
himself to driving the brewers, dis-
tillers and liquor dealers from the
state of Nebraska. It is evident that
if Bryan is on the platform commit-
tee of the next democratic national
convention he will make a hard fight
to commit the party to the cause of
absolute prohibition. Should he suc-
ceed he would necessarily again be
the nominee. He has run on every
issue except prohibition and this
may prove the next opportunity.

Kirksville people will stop taking
the Delinquent, if they don't watch
out. The fly in the article on Dr.
Still and osteopathy is that Kirks-
ville was referred to as "a little
mud-smothered town in Missouri."

OLD GRAPE VINE! THIS IS

Forty Years Ago Was Mentioned in a Kansas City Paper.

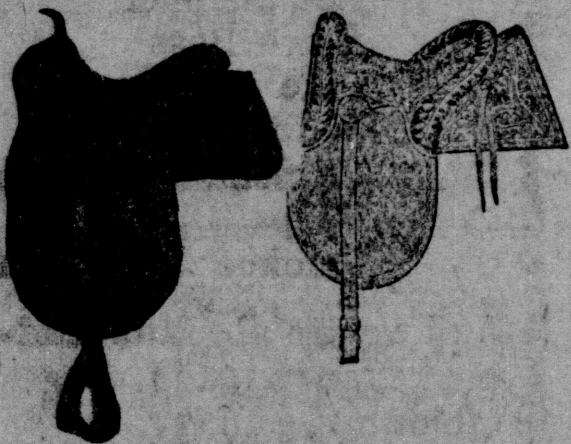

Liberty, Mo., May 11.—Clay county can boast of a grapevine which for age, size and productiveness surpasses anything of its kind so far reported in the state.

Just when the vine was planted or by whom propagated is unknown, but forty years ago it was of sufficient size to receive special mention in a Kansas City paper.

At that time the vine measured thirty-six inches in circumference and had attained a height of eight feet. The property on which the vine is growing was owned in 1870 by John Howdeshew. The old vine is still in a healthy condition and bears fruit each year.

SWINDLE CHARGED

CARL SWEARINGEN, FUGITIVE IN APRON GAME, AT HOTEL UNDER FALSE NAME.

PRETTY YOUNG BRIDE GOES FREE

Postoffice Inspectors Assert That the Gang Has Fleeced Thousands of Poor Women by the Mail Fraud.

St. Louis, Mo., May 11.—Carl Swearingen, 28 years old, a son of Dr. P. H. Swearingen, president of the Swearingen Drug Co., of Houston, Texas, with his 17-year-old bride, was arrested by the postal authorities in St. Louis yesterday. The couple was arrested by Postoffice Inspector C. L. Patterson, of St. Louis, and Inspectors A. E. Gerner and John B. Parsons, of Chicago, at the St. James hotel yesterday. They registered there May 6 as John Lemarque and wife, of New York city. Their arrest, the inspectors say, followed that of four alleged accomplices. Swearingen waived a hearing here and will be returned to Chicago for trial. The woman was released.

According to the inspectors, Swearingen, who refuses to discuss his case, is a graduate in pharmacy from the University of Illinois, and had been in the employ of the Congress Drug Co., of Chicago as cashier. They say he was financing a gang which fleeced thousands of women by what is known as the "apron game." A number of St. Louis women were among their alleged victims.

The operators of the "apron game" advertise to give employment to women at home making aprons at a liberal price. In this instance, the inspectors say, the price was 25 cents apiece. The women are required to send in a deposit to cover the cost of the material and are swindled out of this deposit.

The inspectors say the gang, of which Swearingen was the leader, had been operating for about three years. Under the old statutes the inspectors could do no more than get out a fraud order against them, and they would return to business under a new name. The new statutes, however, make such practices a felony, with a maximum punishment of five years' imprisonment. The four who were arrested before Swearingen were: Henry B. Mills, manager Mills Manufacturing Co.; William E. Leonard, manager Leonard Specialty Co.; William Johnson, manager of the Muskogee Specialty Co., and a printer named Charles Lipp, who printed their literature. Mills and Lipp were arrested in Chicago. Leonard was caught in South Bend, Ind., and Johnson in New York city. Swearingen escaped at the time the officers were on their way to arrest him.

An investigation of the Mills Manufacturing Co.'s books showed that the profits for the past three months were \$1,400. This represents \$1 each from 1,400 women throughout the country. It is estimated that over 3,000 women, mostly of the poorer class, were fleeced. Among the letters taken by the inspectors were two addressed to Myrtle E. Truby, 2462 Geraldine avenue, and Mrs. M. Bam biher, 519 Emerson street, St. Louis.

Mrs. Herman Hobeln and son and daughter, of three and one-half miles east of here, visited last Thursday with relatives near Lincoln, and on reaching home the husband and father, aged over 70 years, was found and could not be found at the premises. Searching parties were at once formed by the neighbors and a diligent search was kept up until 3 o'clock the following morning before he was found. Mr. Hobeln stated that he had gone into the pasture in search of a missing horse, and dark ness overtook him. He lost his way and in trying to get straightened out he wore himself completely out, and was compelled to lay in the continued downpour of rain fully twelve hours before he was found. When found he seemed almost lifeless and could not speak, but was quickly revived. Our last report was to the effect that he was getting along satisfactorily.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves. This clearly explains why as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

WHO'LL GET THE WATCH?

Will Be Handed Out to Some Patron of Sacred Heart Bazaar.

Sacred Heart hall was crowded with visitors at the bazaar last evening, all enjoying to the utmost the many pleasing diversions prepared for their entertainment. Many good prizes were awarded.

Tonight promises to be one of the most delightful of the bazaar, as the altar society, one of the principal societies of the parish and numbering over 100 married ladies, will be in attendance to welcome their friends. A number of awards will be made tonight, among them a handsome parlor electrolite.

All the booths, especially the linen, are well patronized both afternoon and evening.

The fish pond continues to be the center of attraction for the children. The ladies in charge were made happy yesterday by the presentation of a ladies' valuable gold watch, to be handed over the counter of the "country store" during the week.

An impromptu program will be given tomorrow evening by the Young Men's League of Blessed Casper.

GREAT RESULTS AND GOOD WORK CONTINUES

Root Juice Has Proved Its Great Merit to Many.

Many people here, as elsewhere, are no longer incredulous, they are simply amazed at the results obtained from Root Juice. When the remedy was first introduced to this community and so many were being benefited by a few doses, it was generally thought that the medicine would only give temporary relief, but as the time passes and many that were ailing are no longer complaining, but are advising their sick friends to try Root Juice, confidence in the great medicine is becoming positive. Root Juice makes so many remarkable cures by removing a few causes and giving nature a chance. It tones and heals the stomach, bowels, liver and kidneys; it creates a healthy appetite; and by its toning action on the blood-making and blood-filtering organs, good, rich blood is made to nourish every weak part of the body. If your stomach, bowels, liver or kidneys are out of order, they will be pleased to tell you all about it at Wilcox's drug store. Root Juice, \$1 a bottle. It has proved all that is claimed for it.

HOBBO LEFT \$1,300

IN A 10-CENT BED THAT HE HAD "BUMMED" OF A PRIEST IN ST. LOUIS.

HURRIED BACK TO RECOVER IT

Traveler Told the Rev. Fr. Dempsey That He Was in Hard Luck and Got Free Lodging—Domestic Found the Cash.

St. Louis, Mo., May 11.—When Mrs. Jane Carey, a domestic, employed at Father Dempsey's hotel, on Seventh street, was making up the 10-cent beds of the lodgers yesterday morning she was dumbfounded to find a roll of money under one of the mattresses.

Mrs. Carey had never seen so much money at one time before and going to the telephone she called up Father Dempsey's residence and asked him to hurry to the hotel.

When the priest arrived he found Mrs. Carey bordering on a fainting spell and clutching the money in her apron. Father Dempsey calmed her fears about robbers and going into his office counted the roll.

He found \$1,300, made up in these denominations: Three \$100 bills, four \$50 bills, twenty \$20 bills, thirty \$10 and fifty \$2 bills.

Inquiries as to the owner of the hoard disclosed the fact that he had strolled into the hotel Monday night and asked for a bed. He told a story of poverty to the priest and the latter quickly gave him a bed and told him that he could have his breakfast in the morning.

Father Dempsey was in a dilemma as to what to do with the money when he suddenly heard a man in the hall crying, "I've been robbed!" The priest called the man into his office and asked him his troubles. He said he had lost his \$1,300 in the hotel. When he gave the denominations of the bills, Father Dempsey returned the money to him.

The stranger said his name was William Harrigan, and that he had tramped all the way from Memphis. He intended going to New York, where he expected to meet relatives.

Harrigan said he had saved the money working on a farm, and when asked why he had sought charity at the hands of the priest, replied that he was afraid to let it be known that he had so much money.

Harrigan did not thank the woman who found his money.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root.

Many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

FOUND IN BALLOON

FARMER NEAR GLASGOW, KY., RESCUES PAIR BELIEVED TO BE FORBES AND AID.

PHYSICIANS ARE CALLED AT ONCE

No Food Found in Basket—Couple in Serious Condition—Were Unconscious When Discovered Last Evening.

Glasgow, Ky., May 11.—Two men in a balloon, who are supposed to be A. Holland Forbes and his assistant, descended on a farm near Center, Metcalfe county, late last evening. It is reported both men were unconscious when the balloon came to the earth, and that the people who aided them and are taking care of them now, have, so far, been unable to learn anything of their identity.

The balloon was seen two hours before it dropped. It was coming from a southerly direction and was traveling about seven miles an hour.

Both men are said to have been found lying unconscious in the basket of the balloon. They were taken by a near-by farmer to his home and physicians were called. It is said the men are in bad physical condition.

Efforts were made late last evening to ascertain if the men are A. Holland Forbes, of New York, and J. Carrington Yates, both of whom went up Monday to break the world's record for distance.

The men took enough provisions to last three days, but the physicians who attended the men said last night that nothing in the way of edibles was found in the balloon.

On account of the washout on the Katy line, Rev. Nightwine was unable to fill his regular appointment at New Bethel last Sunday.

Mr. Curran and family have as their guests this week relatives from Texas.

Dr. D. P. Dyer made a professional visit to this vicinity last Friday night.

Mrs. Laura Lentz and son, Ray, were shopping in Sedalia Monday.

Mr. Ross Ashbrook spent last Sunday night with his sister in Sedalia. Mr. and Mrs. Walter Russ are rejoicing over the arrival of a fine boy at their home last Friday night. Mrs. Russ was formerly Miss Geneva Jordan.

P. S. Warren delivered several loads of hogs to Spring Fork yesterday.

Mrs. Coby Durrill, who has been visiting here, was called home by the illness of her husband, who is a little improved at this writing. Miss Ira will remain for a longer visit.

Mrs. Fred Meyers and daughter, Miss Ida, were shopping in Sedalia Monday.

Mrs. Charley Derrick, of Fairfield, and Mrs. Ed Porter, of St. Louis, are visiting their parents. Mr. and Mrs. Charley Chrisman.

The many friends of Mr. Willie Rhodes, who resides in Oklahoma, are very glad to learn that he is improving, and some hopes are entertained for his foot, which it was thought for a while would have to be amputated. Mr. Rhodes fell from a disc about two months ago and was dragged a considerable distance. His ankle and foot were badly mangled, but it is now thought the foot can be saved.

The recent rains and the heavy frost delayed the farmers very much. Some are still feeding on account of grass being so scarce. Some corn

will have to be planted over. Gardens look like pastures. Potatoes are beginning to come out some.

Miss Ruth Wightman was a passenger into Sedalia Sunday afternoon, after a few days' visit with Mrs. A. M. Boyd and Mrs. Stephens.

NOT BY A DAM SITE

Mill Pond Not Necessary for the Operation of a Mine.

Joplin, Mo., May 11.—The successful operation of a mill without a mill pond has been solved by the operators of the Green Dog mine north-east of this city, now recognized as one of the largest ore producers in this locality.

The construction of a mill pond has now been made unnecessary by the completion of a one thousand foot flume from a small dam and intake which had been constructed that distance from the mill.

This furnishes more than twice the volume of water required for the successful operation of the mill, being two feet wide and two feet deep.

On account of the caved and broken ground where the Green Dog is being operated the construction of a mill pond is not considered feasible.

Mr. Isaac Cook, commander of above post, Kewanee, Ill., writes: "For a long time I was troubled with backache and pains across my kidneys. About two months ago I started taking Foley's Kidney Pills and soon saw they were doing just as claimed. SUNFLOWER PHILOSOPHY.

Some people are so stingy that they are dishonest.

No use talking; a prohibitionist taking a drink amuses people.

In Kansas the hell joke causes almost as much merriment as the keg joke.

One way not to have a good time is to spend most of your time looking for it.

We almost hate to meet a stranger in August; we so hate to shake his hot hand.

"What," the women folks all say when father scolds, "is he grumbling about now?"

Neighbors living next door to a baby often lie about his smartness as much as its parents.

Every one discovers some day that when he asks for simple justice he is asking too much.

Incidentally, there are a number of voices that could be revised downward to advantage.

You women have an idea that we men can't get along unless we have a woman to watch us.

People sympathize with you in order to tell you they have seen a great deal worse trouble themselves.

The man who always tries to lug in a cheerful word when he meets you finally gets on your nerves.

Which gives you the greater enjoyment: To hear your friends praised or your enemies roasted?

If you think people have had memories, that's another proof that you have always behaved yourself.

There is always plenty to quarrel about; we heard two men quarreling today as to the best breakfast food.

Herr Hager, a rich and influential Berlin banker, frequently had watches picked from his pocket. At first he had recourse to all kinds of safety chains; then one morning he took no precautions whatever, and quietly allowed himself to be robbed. At night, on returning from his business, he took up the evening paper; he uttered an exclamation of delight. A watch had exploded in a man's hands. The victim's hands were shattered and the left eye destroyed. The crafty banker had filled the watch case with dynamite, which exploded in the operation of winding.

His executors also found secreted in various desks, drawers and cupboards, numerous pocketbooks crammed full of money, to the extent, it is said, of \$20,000, together with more sentimental treasures in the form of lockets of hair from the tresses of forgotten beauties of the court.—London Chronicle.

AN OLD-TIME PRESCRIPTION

In a modern product, from time immemorial sage and sulphur have been used for hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was tiresome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready to use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c and \$1.00 a bottle, or which is sent direct by the Wyeth Chemical company, 74 Cortlandt St., New York City, upon receipt of price.

WOMEN IN FIELD OF SCIENCE.

Their Work in the Agricultural Department at Washington.

Wandering through the huge white marble buildings of the Department of Agriculture at Washington you see many women, in neat white aprons, some of them mere girls, bending over microscopes and test tubes. Their activities seem very mysterious but when you inquire you learn that they are engaged in original research work relating in one way or another to farming or gardening.

The case of Miss Alice Henkel, a botanist in the plant bureau, is noteworthy, if only for the reason that she entered that establishment originally in an ordinary clerical capacity as a stenographer and typewriter. That was only a few years ago when a mere girl she came to Washington from Cincinnati. But she was the inheritor of scientific aptitude from a family in which there had been many searches after exact truth in botanical and other lines, and she quickly took up plant study as a professional pursuit.

Miss Henkel, though still a young woman, is the author of a number of scientific bulletins already issued by the plant bureau. One of these is on the subject of "Weeds." Another is on "Drug Plants"—his latter subject being one to which she has devoted special attention. Up to the present time more matter of hers has been published by the Government than from the pen of any other woman.

Miss Margaret Huddleson is another young woman scientist in the Department of Agriculture. She hails from Kansas City, Mo. Not long ago she took a high degree at a local college of medicine and is now a full fledged doctor. This she did in the intervals of her work as a pomologist—that being her particular specialty. Her most important business in the division of pomology is to give instruction by letter to people all over the country who want to know about how to grow fruits.—Detroit Free Press.

King Alfonso is, perhaps, the youngest monarch who was ever selected to arbitrate on an international dispute, which in the present case is the difference between England and Germany, with regard to the Walferd Bay territory.

MRS. SAYLER IN PRISON

Taken to Joliet on Same Train With Dr. Miller.

Watsela, Ill., May 11.—Mrs. Lucy Sayler, jointly convicted with Dr. W. R. Miller of the murder of Mrs. Sayler's husband, a Crescent City banker, was taken to the penitentiary at Joliet yesterday. Dr. Miller likewise began his sentence.

Dr. Miller and Mrs. Sayler were taken to Joliet on the same train, but bade each other good bye in the prison waiting room. Mrs. Sayler will appeal her case, but Dr. Miller, it is said, will make no further legal fight against his conviction.

A GRAND MEETING

(Continued from page 1.)

novation for Congregationalism, which is made up of churches which are absolutely independent. This plan was a move toward a more centralized authority, with a superintendent of state work to see that there are no loose ends in the management of churches.

Dr. Silcox, of Kansas City, who is pastor of the Westminster church, led in the discussion and was closely followed by Dr. Charles S. Mills, of St. Louis, and Dr. Lewis, of Kansas City. The plan was thoroughly handled and the adoption of the report will guarantee a splendid business management of the interests of Congregationalism in Missouri.

A large number of delegates are in attendance from Springfield, Peirce City, St. Joseph, Kansas City, St. Louis, Hannibal and Hamilton. Dr. C. W. Dunn, of Lebanon, Mo., evoked a great deal of applause as he presented the situation and state of the churches. In this paper he stated that a strong effort should be made to bring the churches closer together in their fellowship, and many were the striking plans which he suggested.

At the afternoon session the program was slightly changed, owing to the absence of Dr. George E. White, of Grinnell, Ia., who was to speak on "The Work in Turkey." Dr. White was detained by the serious illness of his daughter. The general work of the afternoon was to discuss the work of the small churches of the state.

Rev. W. D. Fellows told of the work at Windsor; Rev. C. L. Parker explained the situation in Joliet; Rev. H. F. Holton the work in Kansas City; Rev. Sherman Willard the work in Joplin, east; Rev. W. Hubbard the work in St. Louis; Rev. John Breerton of a part of the work in Kansas City, and Judge Jaws of the work at Willow Springs.

As the Democrat-Sentinel goes to press a meeting of the directors of the state work is in session, and plans are being made for a more aggressive work throughout the state.

Tonight the services will be intensely interesting. Special music will be given by the Ladies' Musical club, and then an address will be made by Rev. A. H. Armstrong, to be followed by the main address of the evening by Dr. Puddfoot. This is to be a rare treat, as Dr. Puddfoot is known as one of the most entertaining preachers in the denomination. He came from Indianapolis especially for this address and those who hear him tonight will have a rare treat.

NEWS OF THE RAIL

TELEGRAPHERS ON THE PENNSYLVANIA LINE ADJUST THEIR TROUBLES.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

Several important concessions have been secured by the 5,000 telegraphers on the Pennsylvania system east of Pittsburgh following a meeting of the general committee representing the operators and General Manager Myers of the railroad. Among the concessions granted were these:

In addition to the general 6 per cent increase in wages recently declared, supplementary increases were granted to equalize wages with the amount of work performed. Adjustments of rights of employees. Extension of the pass privilege to include some employees of the telegraph and agents' departments, to whom the privilege has not hitherto been granted.

An agreement was made between the telegraphers and the railroad company that when vacancies are advertised any employee may bid for them regardless of his rate of pay or the rate of pay of the advertised position.

Trainmaster Sullivan Resigns. "Denny" Sullivan, trainmaster for the Western division of the Missouri Pacific at Jefferson City, has resigned, effective at once.

Saloon Thought No. 389

In the recent campaign a document was put forth by the liquor traffic which contained this concrete illustration: "The man returns from his day's toil to find all that is offered him for his home comforts is a seat in a dingy kitchen, the atmosphere of which is teeming with the odor of drying clothes on ropes stretched to and fro across the room. The anti-saloons would like to compel this man to spend his evenings amidst such surroundings, while the saloon offers him a bright and cheerful place where he can spend it with his companions." (They know their trade—the daily washing keeps the family from starving.)

No Cheer and Comfort for Those at Home.

But here our saloon friends drop the brush that paints the picture, but it is far from complete, for back in the same dingy kitchen which John has come from there sits Betty, who years before was the person to whom all the sacred vows and pledges of faithfulness and devotion were made. She is alone; if not alone, trying to quiet and put to sleep the fretful children. There is no escape for her. She belongs to that great class of humanity for which the saloon crowd have no word of pity or tear of sympathy, but knows full well that it is out of these heartaches and heartbreaks that they wring the accursed profits upon which their traffic lives. So we unhesitatingly say that the saloon that tempts John away from Betty under the conditions described is hell's best agent, and John or any other man who accepts the invitation is a contemptible coward.

Day before yesterday a resident of Sedalia was hunting the office of an electrician on Ohio street, between Main and Second streets, (on the east side) and in his ramblings he ran into what looked to him like a GAMBLING room. It was fitted out with padded tables, wheels, painted machines with squares and numbers on it, etc., etc.

How many men in Sedalia are drawing a salary and made an oath before their God to see to it that the laws were enforced, and to uphold the constitution? There is at least a dozen that are being PAID by the taxpayers of Sedalia and Pettis county to enforce the law.

We understand it is a penitentiary offense to run a gambling den in Missouri, and the owner of the building is liable, too; yet all this can go on and the police either know it, or are too sleepy and blind to know what is going on. Isn't it a sweet state of affairs to have our laws trampled under foot as these men are doing?

ANTI-SALOON LEAGUE.

souri Pacific at Jefferson City, has resigned, effective at once.

Mr. Sullivan would not say where he was going, but stated it was a more lucrative and better position than he has at present.

Mr. Sullivan's successor has not yet been appointed.
